Why do I want to participate in the Mentoring-Partnership?

I have recently shifted to Germany and I am looking for a job here. It would be nice to have some guidance in how to find a relevant job here and also some help with the language as well since I have just started learning the German language. It would be good to talk to someone who is working in science or project management in a research institute or a company/start-up. Thank you very much for your help.
